Audio Inputs:	Two

Description:

This new Digital Incident Recorder is what our whole industry has been waiting to get our hands on and into our surveillance inventory. The recorder comes with a 40 GB HD drive which will record 10+ hours of video and stereo audio. The 4 trigger inputs are great for video motion detectors for surveillance work and for police car video systems. We will be writing application notes very soon. Replace that old Sony tape recorder with our new DVR. Just think - 10 hours of 30 FPS live recording.
