Description:

HarrisTech has a unique selection of 12 Volt pan and tilt (PTZ) platforms for board cameras, lipstick (bullet) cameras, small body and large body cameras. The front pivot P&T permit the use of various lens and camera configurations through small apertures. This feature is ideal for covert or low profile applications.

This pan and tilt is designed for pan and tilt of small lipstick cameras around a front center pivot point. Good for interrogation rooms, surveillance vans, and room covert surveillance.
