H20HDC	\$789.00 Heavy Duty
H20DTMF	\$430.00 DTMF Generator
H20DTMF-M	\$1625.00 Adds a 5.6" monitor

Specifications:

Power:

9 Vdc

Description:

Powered by a PP3 9V battery, it will drive the **H2001, H2002, H2003** and **H2004** pan & tilt units and motorised zoom lenses over cable to a distance of about 200 feet.

A potentiometer allows speed control for the motors.

The **H20HHC** can be used in non-telemetry situations or as a set up tool to check operation, angles etc prior to telemetry connection. It has two identical output sockets for pan & tilt and lens control.

The **H20HHCS** controls P&T as well as the modified Sony 480/780 camera modules.

The **H20SD** is the same as the **H20HHCS** but is housed in a diecast metal box making it 'heavy duty'.
