Description:

Everything you ever wanted in a camera – you have it with the KSC-4550. The wide dynamic range makes this camera ideal for many operations. The OSD display allows you to set the many camera features of the camera to the scenario or operation at hand. The Privacy feature allows you to block off a part of the picture to allow a privacy area such as in a jail cell. The low light capability of the camera will allow you to observe scenes that only could be seen with cameras at 4 times the price or with a night vision tube.

A must for your department
