Description:

This new surveillance DVR recorder is perfect for surveillance van operation. The GUI (Graphic User Interface) allows easy setup of date & time. The built in battery will keep the setting for the next surveillance. The built in DVD burner may be used to down load your evidence or simply use the USB output to a thumb storage device.

The unit has a RJ-45 on the rear panel for networking purposes. The unit is set up for camera one to be your main recording with the other 3 ports used for around the van surveillance. Our new power distribution module (KSPD-1) will allow easy set up and operation on the DVR. The video is also watermarked for authentication. The time and date generator has a battery backup for holding the time & date.
