**Description:**

TSunStar 300 features ultra low light sensitivity down to 0.00005 lux. The 1/3-inch CCD Sony sensor incorporated advanced micro optics to boost overall quantum efficiency and sophisticated signal processing techniques such frame averaging and binning pull images out of nearly total darkness. Available with a full range of lenses and various housing options, SunStar 300 provides new levels of low light performance in a wide range of applications.
