\$895.00

Specifications:

Power: 12 Vdc @20 Ma
Output: DTMF
 RS232C
Size:
Weight: Oz
Push to Talk: Relay

Description:

This new camera controller was developed for the Federal Government to control 4 independent cameras equipped with control receivers and video microwave transmitters.

This unit will control up to 4 cameras equipped with DTMF decoders or RS232C decoder. An RS232C output is supplied to control a video switcher with RS232C input.

The controller makes controlling a camera lens so easy by just pushing the proper button. The unit controls the Zoom, Focus, & Iris as well as turning on and off the remote unit.

Compatible Decoders--KSC-TD-357 DTMF Digital system -- Coming Soon.
