Specifications:

Recorder:	Sony
Camera:	Sony

Description:

This is the greatest camera controller ever designed, it can remotely turn on a Sony Camcorder in the record position to covertly record video. Just plug the cable into the LANC jack on the Sony camcorder and put the camcorder in the VCR position and when you are ready to start recording, just turn on the covert switch.

To use other cameras with your camcorder, use our new LRMP-24
