Specifications:

Recorder:	Sony
Camera:	Sony
External Camera:	Any CCD
Power-Battery	9Vdc Battery

Description:

This new unit adds the ability to use your Sony camcorder as a video recorder to a external CCD camera. This allows the use of a button hole camera or very long range camera with lens to be recorded on the Sony camcorder. In addition, our new Stereo microphone system may be plugged into the LRMP-24PS and cut out the camcorder microphone to improve the audio.
