Day/Night Digital Camera

This digital camera kit is the ultimate in still photography for surveillance applications. The new D300 digital camera has a pixel resolution up to 6.5 million pixels. The resolution may be adjusted downward for smaller photos. Each photo is numbered in the camera, so that when you insert a new memory card the numbering system continues and is not duplicated.

The 160 to 640 mm lens is optically stabilized and allows shooting from a hand held position except at 640 mm and above. See our web site to see more photo's

FEATURE Options:

- Digital Camera - 6.5 Mega pixels
- 160 to 640 MM Lens (interpolated)
- 100 MW Laser with Mounting & Switch
- Interchangeable Lenses
- Rechargeable Batteries
- Pelican Case
- Lens Doubler (320 to 1280 MM)
- 2X Extender
- Night Vision

OPTIONS

Sony Remote Camera Controller

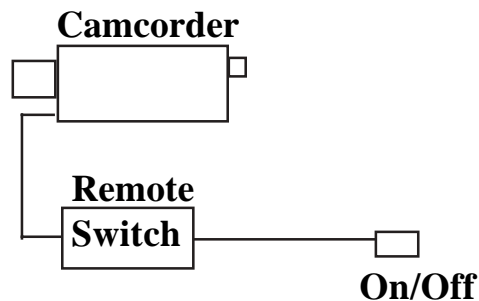

Model KLRA-MOS \$325.00

This is the greatest camera controller ever designed to remotely turn on a Sony Camcorder in the record position to covertly record video. Just plug the cable into the LANC jack on the Sony camcorder and put the comcorder in the VCR position and and when you are ready to start recording, just turn on the covert switch. To use other cameras with your camcorder, use our new LRMP-24

Features:

- Covert Operation
- Turn on Recorder/Camera
- On/Off Switch Control
- Compatible with Sony Camcorders

Covert Systems 2495 Vista Drive Upland, CA 91784 909-981-8855
 Fax 909-981-7386 www.covert-systems.com

Sony Camcorder Remote Camera Controller +

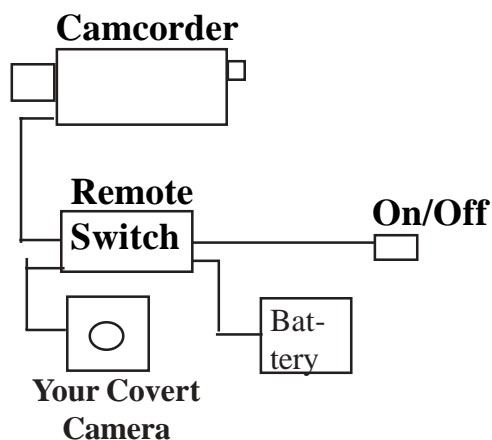

KSRMP-24PS \$375.00

This new unit adds the ability to use your Sony camcorder as a video recorder to an external CCD camera. This allows the use of a button hole camera or very long range camera with lens to be recorded on the Sony camcorder. In addition, our new Stereo microphone system may be plugged into the LRMP-24PS and cut out the camcorder microphone to improve the audio.

FEATURES:

- Covert Operation
- Turn on Camcorder
- On/Off Switch Control
- Compatible with Sony Camcorders
- Use of External Cameras

CD Video Recorder

KSR-212 \$795.00

You can record from practically any audio or video source, including live feed from a microphone, a cassette deck, a video camera, a mixer, and many others. Make a high quality CD on the first try, every time! Make backup copies, or archive your video to CD for playback in most DVD players. You can even span from disc to disc to record non-stop for hours on end! The possibilities are endless.

Now, one can swear that the recordings were never tampered with -- Camera direct to a CD disk

- Standalone 12X CD Duplication with automatic format detection
- Record and Pause to create multiple videos (Tracks) for playback
- Black set-top configuration with 2U rackmount kit included
- Video CD discs created play back in most current DVD players
- Audio CD discs created play back in almost any CD player
- Play back Video CD discs and Audio discs on PC or Mac

Fax 909-981-7386 www.covert-systems.com

Buttonhole Color Camera

KSC-Buttonhole \$495.00

FEATURES

- Covert Operation
- Battery Powered
- Color
- AC/DC Operation

This is the latest in covert cameras. The button hole camera comes with the battery holder all cables and extra buttons. The camera can be easily placed into a button hole type shirt and run to a recorder or one of our video transmitters. If audio is required, our video transmitters come complete with microphones. Our body wires are also available to transmit audio to a remote receiver with recording.

The Camera

Window Camera Mount - "The Grabber"

Grabber \$85.00

This camera mount is great for long surveillances. The suction cup on the bottom of the mount simply attaches itself to flat auto glass and similar surface. Your camera attaches to the top of the mount via a 1/4-20 screw. (Standard camera mount). Spotting is available in Color or B/W. Spotting Scope with camera \$4000.00

FEATURES

- Attaches to a flat surface
- Holds several Pounds
- Quick Release

Night Vision Pocket Scope

Model 4100 \$2495.00

| | |
|-------------|---------------------------|
| Sensitivity | 1200 uA/lum |
| Resolution | 40 LP/mm |
| Batteries | 2ea "N" Cells |
| Lens Mount | "C" |
| Weight | 1 Lb 4 oz |
| Size | 5.5" L x 2.25" W x 2.7" H |

This 3rd Generation+ commercial system is exactly the same as the "OWL" in size and most specifications. The Nitemare is priced at about ½ the cost of the "OWL" because it's photocathode sensitivity is slightly less than the "OWL". It's signal to noise is slightly greater than allowable in mil-spec systems. A photocathode sensitivity of 1200-1500 uA/lumen is typical for the "OWL".

Night Vision with the SunStar 300

SunStar 300 \$1650.00

FEATURES

- B/W Camera
- 12 Vdc Operation
- Gen 3 Light Level
- Day/Night Use
- "C" Mount

SunStar 300 features ultra low light sensitivity down to 0.00005 lux. The 1/3-inch CCD Sony sensor incorporated advanced micro optics to boost overall quantum efficiency and sophisticated signal processing techniques such frame averaging and binning pull images out of nearly total darkness. Available with a full range of lenses and various housing options, SunStar 300 provides new levels of low light performance in a wide range of applications. 1/3 inch CCD Sensor, 580 Line Resolution, Advance video processing - frame averaging, binning, C-mount lens compatible, Low Cost. 15x300 mm Lens \$1650.00 Hand Cotroller \$350.00

Covert Systems 2495 Vista Drive Upland, CA 91784 909-981-8855

Video Recorder

GVD200 \$795

Digital 8 Video Walkman

iLINK in/out

Analogue in/out (individual)

Analogue to digital conversion

Digital 8 SP/LP Rec/Play

Hi8/8mm SP/LP playback

TBC, DNR (8mm/Hi8)

Digital program editing (20)

LANC (S only)

Super LaserLink

InfoLITHIUM powered (L-series battery not included)

Digital Video Recorder

KSR-Col-B \$2500.00

FEATURES

- Instant Down Load to DVD or CD
- 12 Vdc Operation
- 50 Hours of Recording
- Date Time Marked
- 802.11 Compatible
- Built-in CD or DVD (Option)

| | |
|-----------------------|---|
| Recording Time: | 50 hours standard: up to 150 hours optional |
| Built-in CD or DVD | Optional CD=\$295 DVD=\$395 |
| Audio Inputs | 2 Seperate Channels |
| Wireless Option | 802.11 |
| Varification Software | Time - date stamped + watermark |
| Operating System | Windows 2000 |
| Processor | 533 Mhz 128MB of Ram |
| Keyboard | Yes |
| Display | Optional and mouse |

Cameras with Night Vision

This compact, precision engineered, 8 element, multi-coated, 2 in 1 relay lens system has been computer designed specifically to deliver the ultimate in razor sharp images from the 3rd generation, fiber optic output of the imaging tubes used in the "OWL". This highly sophisticated optical system produces total screen image clarity without the distortion, edge roll-off, and key holing normally experienced in other systems.

702D Relay Lens
\$1295.00

The optical assembly's extreme compact size (slightly longer than 2") F/1.4 Optical speed and "Focus & Lock" housing provide the ultimate system when precision and compactness are mandatory. Once set up on your "OWL®", the Focus & Lock feature will provide Locked In precision focus that allows untrained individuals to produce incredibly high definition night vision 35mm photographs or video images. Includes adapters to convert from 35mm to CCTV operation.

New Product To Arrive Late Spring 2004
