Moving Sale -- Some Real Bargains

R/5 Series Intelliscope
These R5's are re-conditioned and supplied with new cables. Completely checked out and ready to go.

R5

The advanced-level Model R/5as scope features improved operational capabilities, including remote control, an expanded viewport dimension that enables a wider field of view, and an infinite number of rotation cycles.

We've designed the R/5 to more efficiently utilize printed circuit boards, which greatly reduces hard-wiring requirements and allows easier access to board-mounted components, facilitating diagnostic evaluation and routine maintenance.

New \$9823.00 Re-conditioned \$5560.00

R/4 Series Intelliscope
These R4's are re-conditioned and supplied with cables. Completely checked out and ready to go.

R4 Latest Model

The R/4 Series Intelliscope features major technical advances over the R/3 Series. We've eliminated the side-motor mount compartments, making the unit considerably smaller and more compact. We've also incorporated more efficient internal-control mechanisms and raise/retract operations.

This new compact model reduces internal vehicle space requirements for comprehensive 360-degree (panoramic) operation.

New \$6780.00 Re-conditioned \$3500.00

R4 Early Model

The early model of the R4 would be excellent for someone getting into surveillance van at a very low investment. Think about taking one of these periscopes and putting into truck tool case or a fake dog house setting in the back of your pick-up truck.

Re-conditioned \$2500.00

Controllers

We have both new and old style controllers in stock. They control both the camera and the periscope.

New \$855.00 \$350.00 (new Style) Old \$100.00
