Description:

This new surveillance kit was designed for the PI or surveillance person that wants to setup a quick surveillance from a window or vehicle on a house or store front.

The camera pointed at the target, you set the zoom on the target in question, activate the video motion detector (VMD), this will let the recorder go for more than 10 hours.

This kit is the same as the KSS-PI-1, except it includes the magic arm and mount kit, a conventional low light B/W & color camera, Remote controlled PTZ, & our 15x300 lens.
