4 Channel Receiver Combiner

MODEL # KSRC-4

NEW!

Features:

- 1 Antenna to 4 receivers
- 14 dBi Gain LNA
- 30 dB Isolation
- Saves Space on Towers or Masts

\$850

Specifications:

Gain:	17.5 dB
	10.5 dB 4 Outputs
Isolation:	30dB
Power:	5Vdc/115a@ 35mA
Frequency Range:	2400 to 2500 Mhz
NF:	5 dB
Input Z:	50 Ohms
Output Z:	50 Ohms
Size:	2"x2"x.5"

Description:

This new device will allow one antenna to be connected to 4 receivers. With 14 dB of gain, make up for losses in cables and connectors. For added protection, add a bandpass in front of the LNA. These are available on narrow and wide band configurations. Call for specifications.

Great product to use with our SWATCAM system, like our SAM-9000 SWAT product.
