Description:

This new Video Microwave Receiver/recorder was designed to offer a small video receiver/recorder package with all the power of large units.

The Digital/Hi-8 recorder has a built-in date time generator for accurate recording. The high resolution of 450 lines with digital zoom. The microwave receiver is fully tunable over the entire police band plus more. The new dual diversity receiver minimizes multipath signals. The built-in audio amplifier and speaker allows easy monitoring of the one audio subcarrier. An optional built-in DTMF encoder and transmitter controls the pan & tilt as well as the camera zoom and focus.

Our standard direct video & audio input for testing cameras is also included.
